

## PRESS RELEASE

Chelsea, June 15<sup>th</sup>, 2012

The MRC's Council of mayors wishes to inform the public that, at its next meeting council meeting to be held on June 21<sup>st</sup>, 2012, no decision will be taken regarding the proposed regional septic tank sludge treatment centre.

Although the Council of mayors had previously announced its intention to do so at this meeting, it was agreed to continue their exploratory approach in order to verify the possibility of establishing a regional solution for the treatment of septic tank sludge with the City of Gatineau. It is also pointed out that this step was recommended by a work committee.

According to ongoing discussions, it is expected that this process will not be completed until August. Thus, it would be inadvisable to rule on the proposed regional septic tank sludge treatment centre without first obtaining a definite answer from the city of Gatineau.
